

KOH HONG TOUR

SEMI PRIVATE TOUR

Semi-Private Tour 12 people with Speed Boat.

Discovering the Islands from the Emerald Green Sea with timing and stages different to avoid the crowds of tourists.

DESCRIPTION : Koh Hong Tour is another fantastic excursion that can be carried out simply by Krabi. Hong Island is located in an area that includes about 20 islands, Hong is the largest and is the base of the Park Rangers. The National Park is a 20-minute Speed Boat ride from Ao Nang Beach and is undoubtedly one of the gems of this region, its proximity to the coast and the presence of mangroves growing in the archipelago make the color of emerald green water characteristic unique of these islands. There are two beaches in Hong, the first extending in length and the other forming a small bay, where you can relax, swim and snorkel. The island is equipped with restaurant and bathrooms and is also a first aid point for all eventualities. Inside you can walk a small path of 800 meters. that runs under the cliffs of the Island where it is possible to admire specimens of birds and Monitor Lizards.

OUR PRIVATE TOUR HAS AS A TARGET TO LET YOU VISIT THE MOST BEAUTIFUL AREAS IN THE LESS AFFORDED HOURS AND ALSO SOMETHING DIFFERENT

- **Hong Island** - Relaxation and Snorkelling. The island of Hong takes its name from the lagoon, in fact "Hong" in Thai means "room" and is a unique place because it allows fishermen to protect themselves in the event of rain or rough seas, thanks to the morphology of the lagoon .
- **Hong Lagoon** - Visit to the Hong Lagoon and swim in the Mangroves, La Laguna can only be visited at high tide as boat access is impossible at low tide.
- **Koh Lading** - Paradise Beach, a small island with a small beach surrounded by cliffs, Red Bull Clif Diving's Finale Theater held in 2013, with participants diving from 27 meters in height.
- **Koh Rai** - Stop on the small beach of Rai where you will have 50 minutes to relax on the shoreline rocked by the waves. The main feature of this island is the formation of its tongue-shaped beach, which takes place only at low tide.
- **Koh Nok** - Outside the normal tourist routes you will have 1 hour available to relax on the beach or climb up to the View Point to enjoy a breathtaking view and take a really special selfie.
