

SIMILAN TOUR

SHARE TOUR

One-day tour with Speedboat to discover the Similan Islands National Park famous for its crystalline sea populated by sea turtles.

The Similan Islands are among the most famous marine national parks of Thailand, consisting of 11 islands of which only 8 are open to tourism. You can relax on the white sandy beaches or admire the sea floor in search of sea turtles swimming in those waters. The National Park is open only for six months a year, from mid-October to mid-June because of the monsoons and the distance of the islands from the coast of Khao Lak. The excursion departing from Krabi develops with the free transfer in Minivan from your Hotel at 6.00 am.m. to Khao Lak where a welcome breakfast awaits you. Shortly after boarding the Speed Boat the Similan Tour will take you to visit some of the most beautiful islands in the entire National Marine Park: first stop Miang Island (Koh n.4) fantastic wild island suitable for snorkeling and walking on the white sand beach , where you can relax and have fun. After the visit to Koh Miang lunch will be served: a large buffet of Thai food with rice, chicken, vegetables, fresh fruit and water. The excursion continues with visits to Payu Island (Koh 7) and Ba-Ngu Island (Koh 9) two other islands where you can spend time snorkeling. Last stop is the island of Similan the most famous of the entire National Park where, in addition to normal Snorkeling, you can walk up to the View Point overlooking the entire beach and make some great photographs.
