

KRABI SUNSET TOUR

SEMI PRIVATE TOUR

***The only Sunset Tour in Krabi with Speed Boat and limited seats.
Departure in the afternoon with Relax and Snorkeling between the 4 islands of
Krabi, Sunset at Phranang Beach and Night Bath with the Plakton that lights up!***

DESCRIPTION : The Krabi Sunset Tour is the best choice to combine a day of boat between the islands and the sunset of Krabi one of the most evocative of Thailand. This incredible afternoon tour at 13 pm and return in the evening around 20 pm includes not only the visit of the islands in front of Ao Nang: Poda Island, Chicken Island, Tup Island, Door, Talu, MaeUrai, but also the Night Bath with the Plankton and I can honestly say that this afternoon excursion was a nice surprise for me. The tour starts in the afternoon just when most tourists leave the islands to return to the hotel, which means that you can fully enjoy the islands without the mass of tourists that usually crowd this archipelago, during the tour you can snorkel on the coral reef and walk on the White Sand beaches of Poda Island and Chicken Island.

PODA ISLAND

Poda Island is easily visible from Ao Nang Beach and is the most popular in Krabi because it is only a 15 minute boat ride (Longtail), Poda is the Rangers Park Base and is equipped with Bars and Baths. Poda Beach is a large white sand beach where you can relax and swim in the crystal clear sea. Walking on the left side of the island you will arrive in the wild Selvaggio of the island, certainly quieter and far from the front area, where tourists stop to take pictures in front of the large limestone that makes the surrounding landscape unique.

TUP ISLAND

The Tour of the 7 islands at Sunset will show you the three main islands facing Ao Nang starting from the island of Tup which is an incredible place where you can swim and snorkel to discover the local marine life. When the tide turns back you will gradually see a white sand line appear that will allow you to walk to Chicken Island, I recommend to the Marea, if the cycle is on the contrary do not venture on foot to the other island or you risk the high tide it will not allow you to go back.

CHICKEN ISLAND

Behind the island, reachable only by boat, there is the "Deep Solo", a cliff overlooking the sea where it is possible (for the most irresponsible) to climb and then dive into the sea, one of the most popular areas among climbers Worldwide. Chicken Island is the largest island of the National Marine Park and takes its name from the large limestone rock that resembles a chicken, a must for lovers of Snorkelling because the area is full of marine life, you can swim together with shoals of Pisces Angelo that they are attracted by the boats that stop in the small bay of the Island of Chicken. In the late afternoon this tour takes shape, at 18 pm in fact will be served dinner at Phranang Beach consisting of Rice, Vegetables and an inviting barbecue of fish and chicken and in the end fresh fruit, all this while you enjoy one of the most beautiful sunsets of Thailand .

NIGHT SNORKELING

Last stop will be the Plankton Tour or one of the natural wonders that only Krabi offers in Thailand. When the sunset disappears behind the horizon and the darkness of the night takes its place you can enjoy this amazing phenomenon, take a mask and do not be afraid of the dark or cold, I guarantee you that it is worth, billions of microscopic organisms illuminate water and you can only see them by snorkeling in the sea. I have to say that after many times swimming with the Plakton it amuses me and still surprises me as if it were for the first time. Tour of the 7 islands is a "Must" in Krabi, so do not forget, this YOU MUST DO.

PHRANANG BEACH

Visit Phranang Beach, located on the Railay peninsula and accessible only by sea. Relax on the beach and visit the caves at the end of the beach, including the Princess's cave, one of the fixed stops for those visiting the Krabi region. Enjoy the sunset comfortably lying on the beach until the last ray of sunshine.

YAWASAM

Stop among the small islands of the archipelago to snorkel among depths full of colorful fish and immersed in a crystalline sea.
